

Elmwood Infant School's Food Bank

We have been running our food bank a number of years now and know that it has helped many of our families who have used it, especially over the pandemic.

We will be running our food bank up until Easter and then we will slow it down as restrictions start to ease. Currently we provide bags to about 15 families each week but after Easter with the children all back, we need to reduce this to a more manageable number.

After Easter, if you find yourself still needing that little extra bit of help, please can we suggest you use the following local food banks:

- Croydon Foodbank—you will need to call or email them and they will talk you through your situation and put you in touch with the relevant agency
